AP Computer Science Principles
Ticket Out the Door
Set 13: Introduction to HTML

Name _____ Period _____

Skill 13.02 Exercise 1
For each of the following, indicate whether the name of the HTML page is legal or illegal. If the name of the page is illegal, indicate why. If the name is legal, indicate whether the name follows best naming practices. If the name does not follow best naming practices, indicate a more suitable name.

Name	Legal/Illegal	If legal, rename using best naming practices if necessary
MyPage		
Welcome2MyCoolPage.html		
My web page.html		
My_Web_Page.html		
My&Web*Page.html		
Acoolwebpage.html		

Skill 13.03 Exercise 1
In the space provided, write the basic structure of an HTML page. For each section, indicate its purpose.

Skill 13.04 Exercise 1
In the space provided, write the basic structure of an HTML page. In the body section, include an element to display your name.

Name _____ Period _____

Skill 13.05 Exercise 1

For the code below, indicate the parent-child relationship for each element,

```
<body>
   <h1>The Brown Bear</h1>
   <div>
      <h2>About Brown Bears</h2>
      <h3>Species</h3>
      <h3>Features</h3>
   </div>
</body>
```

Skill 13.06 Exercise 1

Edit the code below such that a title would appear on the tab in which the webpage is displayed. The title should read "All about bears"

```
<!DOCTYPE html>
<html>
   <head>

   </head>
   <body>
      <h1>The Brown Bear</h1>
         <div>
            <h2>About Brown Bears</h2>
            <h3>Species</h3>
            <h3>Features</h3>
         </div>
   </body>
</html>
```

Skill 13.07 Exercise 1

Add comments to the code below to indicate your name and what you learned today.

```
<!DOCTYPE html>
<html>
   <head>

   </head>
   <body>

   </body>
</html>
```
